Environmentally Friendly Ingredients

One of the leading “green” programs in the United States is the U.S. EPA’s Design for the Environment (DfE) program. Products that meet the EPA’s stringent criteria for health and safety are listed on Cleangredients.org. To learn more about DfE visit www.epa.gov/dfe. To learn more about Cleangredients or to become a subscriber, visit www.cleangredients.org.

As a subscriber to cleangredients.org, Pride has direct access to the complete database of safer chemicals which can be readily used to make GREEN formulations and meet DfE requirements. Ask your Pride Sales Rep today for further information and formulation hints.
